Role Title:

Supply Chain Strategy & Product Operations Manager (Intern), Consumer Hardware - Shanghai

Company overview:

Google is not a conventional company, and we don't intend to become one. True, we share attributes with the world's most successful organizations – a focus on innovation and smart business practices comes to mind – but even as we continue to grow, we're committed to retaining a small-company feel. At Google, we know that every employee has something important to say, and that every employee is integral to our success. We provide individually-tailored compensation packages that can be comprised of competitive salary, bonus, and equity components, along with the opportunity to earn further financial bonuses and rewards. Googlers thrive in small, focused teams and high-energy environments, believe in the ability of technology to change the world, and are as passionate about their lives as they are about their work. For more information, visit www.google.com/careers.

The area: Consumer Hardware

Google's mission is to organize the world's information and make it universally accessible and useful. Only one thing consistently stands in the way between our users and the world's information—hardware. Our Consumer Hardware team researches, designs, and develops new technologies and hardware to make our user's interaction with computing faster, more powerful, and seamless. Whether finding new ways to capture and sense the world around us, advancing form factors, or improving interaction methods, our Consumer Hardware team is making people's lives better through technology.

The role: Supply Chain Strategy & Product Operations Manager (Intern) - Shanghai

Supply chain strategy and product operations manager work with Operations, Global Sourcing Managers, Quality, Material Management, Central Ops to develop APAC supply chain capability roadmap and manage some product operations projects, which could be either a process improvement or a product manufacturing project.
